

Preliminary Conference Programme - Friday 17th

Page 1/4

28th European Congress of Veterinary Dentistry | 16-18 May, 2019, Utrecht, The Netherlands

Main Program				
Stream	Small animal and exotic animal dentistry		Equine dentistry	Interactive sessions
	Essentials	Intermediate/advanced		
Room	Progress (max 400)	Mission 2 (max 195)	Mission 1 (max 195)	Quest 2 (max 100)
9.00-9.45	Pedodontics - Start 'em out Young! H.Lobpris 45min	Diagnostic Imaging of the canine temporomandibular joint with standard extraoral radiography, CBCT and arthroscopy. J.Gawor 25min Temporomandibular Joint Pathology in Wild Carnivores in the Western United States. F.Verstraete 20min	Review of dental imaging. N. Townsend 20 min A review of imaging, gross and histological findings in clinically normal and diseased maxillary cheek teeth infundibulae. P. Dixon 25 min	
9.45-9.50	Change room			
9.50-10.35	Does periodontal disease affect other organ systems. A.Caiafa 45min	Update in masticatory myositis. A.Castejon-Gonzalez 45min	Computed tomographic examination of equine cheek teeth sagittal fractures and associated pathology. K. Rowley 15 min Occlusal fissures in the equine cheek tooth: first μ -CT and histological findings. E Pollaris 15 min Surgical treatment of sinus mucocele in miniature horse breeds: long-term follow-up of 7 cases. L. Vlaminck 15 min	Interactive sessions; Interpretation of dental radiographs. Leen Verhaert. 45min
10.35-10.40	Change room			
10.40-11.10	Differential Diagnoses for Curtailed Jaw Function. I Luskin 30min	Necrotising stomatitis of a dog. A.Perry 30min	Complications of sinusitis cases. A Bienert-Zeit 30 min	
11.10-11.40	COFFEE BREAK			
11.40-12.10	Macro photography. P.Theuns 30min	The subgingival microbiome of domestic cats with periodontitis varies according to the clinical form of the disease. S. Peralta 30min	Multiresistant bacterial isolates after chronic sinus empyema associated with dental disease. H Tremaine 30 min	
12.10-12.15	Change room			
12.15-12.45	Key Note Speaker, Bruno Loos			
12.45-13.00	29th European Veterinary Dental Forum presentation Nantes			
13.00-14.30	LUNCH			

Preliminary Conference Programme - Friday 17th

Page 2/4

28th European Congress of Veterinary Dentistry | 16-18 May, 2019, Utrecht, The Netherlands

Main Program				
Stream	Small animal and exotic animal dentistry		Equine dentistry	Research sessions
	Essentials	Intermediate/advanced		
Room	Progress (max 400)	Mission 2 (max 195)	Mission 1 (max 195)	Quest 2 (max 100)
14.30-14.55	A review of crown preparation, impression materials and impression techniques. A.Perry 25min	Feline chronic gingivostomatitis in single- vs. multi-cat households. S. Peratta 25min	When things go wrong with dental cases (case presentations). C Pearce, N Townsen, H Tremaine, P. Dixon 25 min	Dental health in dogs from a dog owner perspective, a questionnaire study in Sweden. K.Enlund 10min Effects of edible treats containing <i>Ascochyllum nodosum</i> . J. Gawor 10min
14.55-15.00	Change room			
15.00-15.45	Introduction to metal crown preparation and cementation. K.Wingo 45min	Current Concepts in Dental and Maxillofacial Diagnostic Imaging. F.Verstraete 45min	When things go wrong with dental cases(case presentations). C Pearce, N Townsen, H Tremaine, P. Dixon 45 min	Comparison of Dog Owners compliance to perform dental home care using two different Protocols. K.Enlund 10min VOHC Update. C.Harvey 25min
15.45-16.30	COFFEE BREAK			
16.30-17.15	ATP of Maxillofacial Lumps and Bumps. I.Luskin 45min	Case report: Rhabdomyosarcoma on maxillary region in a cat. N.Vazir 10min	Management of dental alveolus post extraction. A Bienert-Zeit 30 min	Clinical application of cone beam CT evaluation of dental rabbit abcess. S.Gault 10min
		Case-report: Pink teeth in a 10 months old Cane Corso. E.Nenculescu 10min		Diagnostic Yield of Dental Radiography and Cone-Beam Computed Tomography for the Identification of Anatomic Structures in Cats. C.Heney 10min
		Diagnosis and outcome of a unilateral cranial mandibular swelling in a 1/2- year old Golden Retriever. C.Heinichen 25min	Case series of minimally invasive pin repulsions. C Pearce 15 minfor the Identification of Dentoalveolar Lesions in Cats. C.Heney >> 35min total
17.15-17.20	Change room			
17.20-18.00	To Cut is to Cure: Oral Surgery in Daily Practice. H.Lobprise 40min	Correlation between pain and oral disease in cats undergoing dental extractions. R.Watanabe 20min	Prevalence and characterisation of dental disease in Alpacas. K Proost 10 min	Our approach to abnormal relations in the triad class II malocclusion treatment using Heyrex screw. I.Makarov 10min
		Pain behaviors before and after treatment of oral disease: preliminary results. R.Watanabe 10min	Three dimensional anatomy of Llama and Alpaca teeth: a preliminary study. K. Proost 10 min	
		Prosthetics and Endodontics: Zirconia Crown Reconstruction For An Upper Canine With Pulpitis Aperta In A Cat. R.Nedela 10min	Treatment of brachynathia and long term results (20 cases). L Vlamincck 20 min	
18.15-19.00	Annual General Meeting EVDS			
20.15				
20.30-23.30	Diner at the museum			
23.30-?	Dancing			

Preliminary Conference Programme - Saturday 18th
 28th European Congress of Veterinary Dentistry | 16-18 May, 2019, Utrecht, The Netherlands

Main Program				
Stream	Small animal and exotic animal dentistry		Equine dentistry	Interactive sessions
	Essentials	Intermediate/advanced		
Room	Progress (max 400)	Mission 2 (max 195)	Mission 1 (max 195)	Quest 2 (max 100)
9.00-9.45	Basic principles of orthodontic treatment. H. Kortegaard 45min	Quantitative epithelial cell Ki67-labelling index differentiates canine acanthomatous ameloblastoma from non-tonsillar oral squamous cell carcinoma. S. Peralta 25min	Is the Icelandic breed more sensitive to develop EOTRH? L Vlaminc 15 min	JOURNAL CLUB Brooke Niemiec
		Transcriptome sequencing of canine ameloblastoma confirms odontogenic origin and identifies potential pathways of gene dysregulation leading to oncogenesis. S. Peralta 25min	A review of imaging, gross and histological findings in clinically normal and diseased maxillary cheek teeth infundibulae. P. Dixon 30 min	
9.45-9.50	Change room			
9.50-10.35	Motorized endodontics in small animal dentistry. C. Tutt 45min	Bacterial signatures of canine periodontal disease. C.Wallis 20min	Life after EOTRH – Follow up on clinical cases after complete maxillary and mandibular incisor extractions. N du Toit 10 min	JOURNAL CLUB Brooke Niemiec
		Biphasic calcium phosphate microparticles mixed with autologous blood: Application for the reconstruction of a large mandibular bone defect in a dog. N.Girard 25min	Retained and developmentally deformed and displaced teeth in the horse. N Verhaar 25 min	
			Coronectomy as a treatment option for canines with tooth resorption. N du Toit 10 min	
10.35-10.40	Change room			
10.40-11.10	Light speed filing techniques combined with manual filing. P Theuns 30min	Case series of 136 prosthodontic crowns in dogs and cats (2014-2018). I.Tundo 30min	Bit-induced lesions in the equine mouth: prevalence and association with the bit. E. Pollaris 30min	
11.10-11.40	COFFEE BREAK			
11.40-12.25	Restorative dentistry. B. Niemiec 45min	Surgical solutions for acquired palate defects. A.Reiter 45min	Equine Endodontics. T Henry 45 min	Dentistry in ferrets, rabbits, rodents and hedgehogs. V.Jekl 45min
12.25-12.30	Change room			
12.30-13.00	Feline dental radiology simplified. B.Niemiec 30min	Non-surgical solutions for acquired palate defects. A.Reiter 30min	Equine endodontics. T Henry 30min	
13.00-14.30	LUNCH			

Preliminary Conference Programme - Saturday 18th
 28th European Congress of Veterinary Dentistry | 16-18 May, 2019, Utrecht, The Netherlands

Main Program				
Stream	Small animal and exotic animal dentistry		Equine dentistry	
	Essentials	Intermediate/advanced		
Room	Progress (max 400)	Mission 2 (max 195)		Quest 2 (max 100)
14.30-15.15	New approaches to tooth extractions: the concept of atraumatic tooth extractions. A.Caiafa 45min	Principles of surgical oncology for veterinary dentists and oral surgeons. F. Verstraete 45min		How to perform a safe maxillary dental nerve block and how to deal with complications. K.Nottrott 25 min
15.15-15.20	Change room			How to clean/ occlude periodontal pocket/ diastema. M Stoll 15 min
15.20-15.45	Tips and tricks of tooth extraction. A.Reiter 25min	Local Anesthesia in rabbit dentistry: An important component of perioperative (multimodal) pain management. M.Schumacher 25min		How to assess infundibula for hypoplasia/ caries. R Reardon 15 min
15.45-16.30	COFFEE BREAK			
16.30-17.15	Management of tooth extraction complications. A.Reiter 45min	Comparison of periodontal disease in African and European hedgehogs. V.Jekl 25min		Partial coronectomy/ tooth dissection techniques for extractions T Henry 45 min
		Macrodonia in pet guinea pigs. V.Jekl 20min		
17.15-17.20	Change room			
17.20-18.00	Periodontal Flap Surgery. B.Niemiec 50min	Exotic animal dentistry. P.Emily 40min		Association of the appearance of the frontonasal suture line with horse age R Reardon (10 minutes)
				Cheek teeth peri-apical pain signs. J. Pehkonen 10 min
18.15-19.00	Farewell Drink
